Action Items Brainstorms–

Resource Repository:

Categories of things (training, work experience, employment, programing, etc). Have a table of into for them (contact info, any associated costs, etc)

Maybe use the VFN (by county, also in Transition Toolkit)

Focus on positions, programs, etc over people in the roll, as staffing changes so frequently

Email entire Core Team re: what's missing in the current VFN guide

Community Job Shadow Videos:

Case manager sets up a video call and involve the student in the interview

Allows for reuse, allows students who aren't ready
