Core Team Meeting – 11/29/22
At NCCC with Virtual participants

- Introductions occurred for all who attended in person and virtually.

- Discussed purpose of the Core Team Meeting;
  > "Core Transition Teams increase capacity at the local level to develop, provide, and manage an effective transition process for students. It has been shown that this coordination of services from multiple agencies provides effective case management and enhancement of post school outcomes for students. Recognizing that communities will have their own individual approach, it is important that all high school special education staff, Agency of Human Services (AHS) staff, and community partners have access to the support of a Local Core Transition Team."

- Gathered ideas and needs from Core Team around next steps for the Core Mtg so it is purposeful and provides time for networking with each other.
  > "Share resources and information, make connections with providers and provide training to encourage the use of best practices."

- Triaging individual cases (generally- without any confidential information) to make connections by providing resources and support.

- Tara and I presented about HireAbility services:
  https://www.hireabilityvt.com/
  https://youtu.be/ma48ZseFN1g
  https://www.vermontfamilynetwork.org/

- Google survey will be sent out in the next few weeks to identify presentations.

- Tentative Save the Date for our next Core Team meeting at NCCC(w/ Virtual option) is Tuesday 31st at 11am. We will have a presentation from a local community partner. Will share who is presenting on the Agenda in Jan!

Thank you,
Lauren and Tara Shatney
