

The *Collaboration Framework* is designed to **support operationalizing collaboration** at the state-, local-, and student- and youth-levels and **assists each partner to organize, assess, plan, implement, and sustain goals** that lead to successful postsecondary outcomes for students and youth with disabilities and their families. The Framework includes questions, considerations, and outputs for each section. The questions are designed to improve the effectiveness of current and newly formed teams, meeting the “team where it is,” along the continuum of its development. By utilizing the framework and addressing each set of questions, teams can anticipate achieving the identified outputs.

Plan: *Identify the work to accomplish collectively*

- How will partners work collaboratively to create consistency of practices and services?
- What practices or services address gaps in the system? How will strengths be leveraged?
- What actions are necessary to address gaps in the system?
- What is each partner's role/s? (i.e., decision-maker, planner, implementer)
- Which partners currently support/invest in the vision?
- How will partners coordinate implementation of the plan?

Outputs

- Formal agreement (e.g., interagency agreement, Memorandum of Understanding)
- Action plan developed outlining goals, roles and responsibilities, timeframes and evaluation measures
- System reform

- How will partners work collaboratively to ensure each and every student with disabilities has access to appropriate services?
