

Upcoming LNA Training

The course will meet Tuesday, Wednesday, and Thursday, 3:45pm - 8:45pm from **November 28, 2023 - January 25, 2024** (8 weeks of class; holiday break is Friday, December 22 - Monday, January 1). In addition, there will be a CPR and First Aid certification class scheduled at Rescue that must be attended. **The cost of this 126-hour course is \$2000.** You are advised to seek **financial aid**/support through VSAC (for VT students), support organizations, your employer, or you can self-pay.

The texts and **licensing exam fee ARE included** in the cost of the program; however, the **license** application fee and fingerprinting costs **are NOT included**. The licensing test date will be scheduled and announced after the class starts.

Future LNA Training Sessions

February 27 – April 18 (plus test date)

May 7 – June 27 (plus test date)

Electricians Talk Shop

The purpose of the Talk Shop series is to cover topics from each of the 4 years of the apprenticeship. All electricians and apprentices are welcome! Topics of interest and questions wanting answers will be the focus of each meeting. When there's an evening where a specific topic isn't brought up for discussion, Bill Sevigny will pick a topic to discuss that will surely be of importance to the group, and if you are in the apprenticeship program, it will be seen on the state tests. Everything taught and discussed will be code based, so **bring your code book!**

Pay \$25 for the "talk shop" sessions.

October 11, 2023 - May 8, 2024; 2nd Wednesday each month

WRCC Day Programs for Adults

wrccvt.com

- **SPACE AVAILABLE BASIS**—high school students have priority for seats
- Current cost is \$4000 for a full-year day program, if student has a diploma or GED; payment source must be confirmed prior to program start date
- Adult application opens in May
- Adult will be contacted to meet with adult ed coordinator then the program instructor (hopefully before school gets out; if apply during summer, will need to meet when school starts)
- If adult is determined a good fit for day program, adult participation will be confirmed in August (as high school students continue to make schedule changes through the summer)
- Adult is expected to adhere to all high school and program protocols and expectations
- Consistent attendance and positive class participation is required
- All students in programs must pass the program's safety requirement within the first semester in order to continue
- Industry recognized credentials and certifications vary by program

Current WRCC Day Programs

Programs are planned to be two years—Level 1, Level 2

Level 1 meets approximately noon – two

Level 2 meeting time can vary by program, but either 8:45 or 9:30am – 11:30am

Credentials/Certifications may be offered in Level 1 and/or Level 2

Most programs also have the option to earn college credits

Programs offered....

- Automotive Technology
- Aviation
- Business Management
- Construction and Architecture
- Early Childhood Education
- Electrical Technology
- Forestry and Natural Resources
- Health Careers: LNA and Medical Terminology
- Manufacturing
- Protective Services: Criminal Justice
