This could help fund a Policy and Advocacy Coordinator position. This role will increase VFN’s influence on government, educational, and medical policy and funding priorities which deeply impact children’s lives.

**“Families”** is a pledge of **\$5000**  
**annually for five years.**

This could cover the cost of one and a half days of puppet shows, per year, to schools in need. This includes one of Puppets in Education’s most frequently requested shows, “Bullying Prevention,” which teaches kids about friendship, kindness, and empathy.

**“Futures”** is a pledge of **\$10,000**  
**annually for five years.**

This could fund half an annual salary for a part-time Family Support Consultant each year. All Family Support Consultants have children with special health needs and disabilities, and a part-time schedule allows them more time to support their own children.
